

HSM AREO Letchworth, England

Driving Production at HSM Aero (SA Group)

Hermitage Sheet Metal was founded in 1965 on the principle of always producing work to an excellent standard. The company has grown significantly since then, but this philosophy is still at the heart.

The company offers sub-contract machining of components placing particular emphasis on Quality, Capability, Experience, Reliability and On-Time Delivery.

Metamation
Leading the Industry in Innovative CAD/CAM Software

www.metamation.com

History with HSM Aero

2014 HSM AREO were looking to replace old CAD CAM software for the turret punch press.

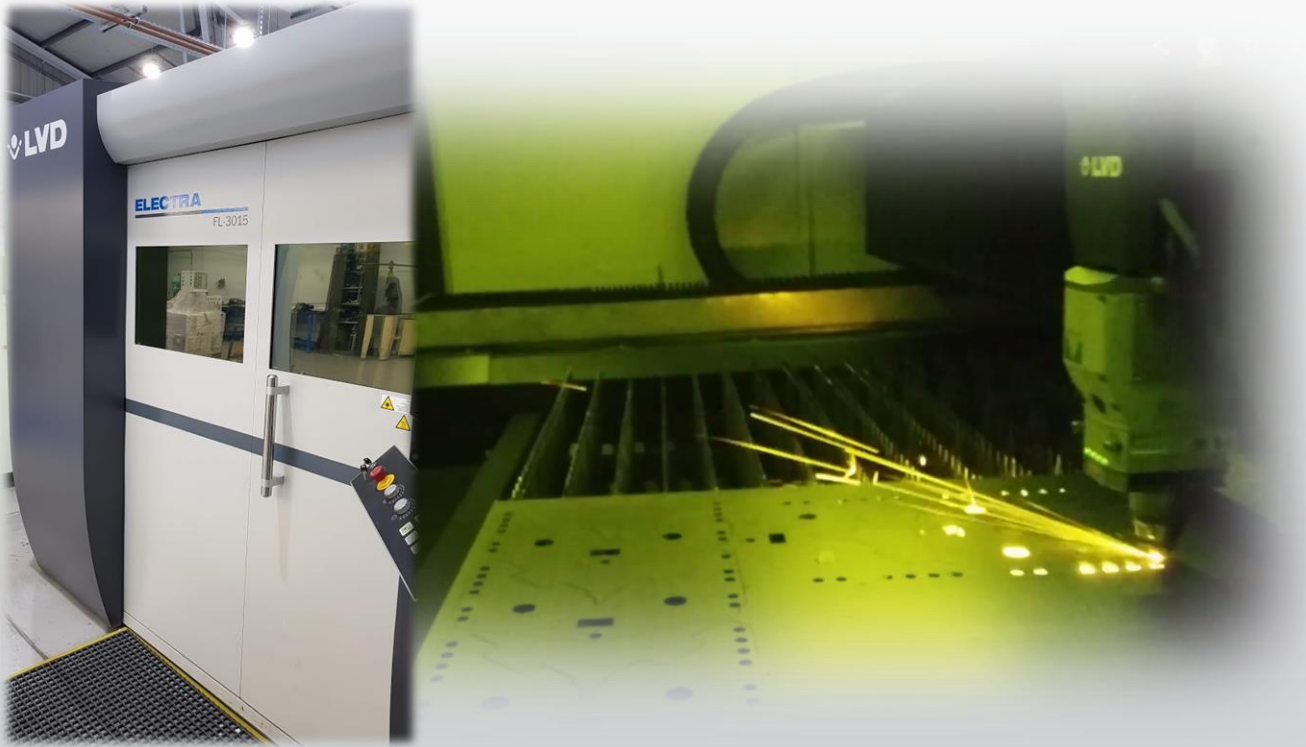

After receiving a referral about Metamation software the team at HSM reviewed PunchCAM along with some additional competitor based products and selected Metamation as the chosen CAD/CAM vendor.

“The MetaCAM software was an easy transition from our previous software for punching”

New Machine Investment - 2017

In 2017 HSM Areo invested in new fibre laser cutting systems to support the expanding business.

“With the addition of purchasing a fibre laser kept the same environment to work in but with laser specific features – Overall a very valuable tool.”

FEEDBACK

Summary

“A vast improvement over our previous software especially the 3D capabilities.”

Steve Perry, HSM Areo
